LOG OF MAJOR NETWORK PROGRAMS

Making this log of over 1600 network shows was a difficult job. Many programs were listed under different titles, were on for brief periods of time and were fickle. They would change networks, times and days constantly. It was also hard to determine, in some cases, what was network, regional and local. Conflicting information also did not help.

I hope this log will help in dating shows. If you can't find a show (many are cross-referenced), look under the performer. Major sources of information were: My own research at the New Haven Public Library in 1971 and recently; many Radio Guides, Radio Mirrors and many broadcast schedules of several newspapers; material by Harrison Summers, John Dunning, Frank Buxton, Raymond Stedman, Vincent Terrace; many catalogs and logs; especially Ray Stanich who has done more work in establishing broadcast dates of radio shows than anyone. Corrections and additional information are welcome.

HOW TO READ THIS LOG:

1. The title is listed first.
2. Complete broadcast dates are in (), many with exact dates on the air. 1932..38 means show was on from 1932-38 but not continuously.
3. If there are changes during run of the show, first dates are listed next.
4. First entry following dates is sponsor when known; Sus = sustained; Multi = several sponsors
5. Network is next; CBS, NBC = Red, Bl = Blue (until 1942), ABC (from 1942-43), Mut
6. Then comes day; 5t = 5 times a week. Many shows were broadcast on different days on the west coast. I've tried to keep East Coast days.
7. Then number of minutes; normally no time is put if show is 30 minutes. If show is on more than once a week, minutes are put first.
8. Time of day, when noted, is last (EST).
9. A slash (/) means it changed during that period; ex. Mon/Fri: Show was on Mon and changed to Fri during that time period. Often many shows that started as a summer show changed days during the regular season.
10. If a log or book is written, it is indicated.
11. If the complete run of the show is available it is also indicated.
12. Some syndicated (syn) shows are entered. If the number of shows is known and who produced them, it is noted.
13. Most shows on just one year (1946) were summer replacements.
